CONTEXT:

This is the annual calculation of overhead rates charged by the University to non-General Fund (earnings) units for services such as purchasing, auditing, insurance, campus safety, etc.

- Attachment E Summary of Overhead Cost Pools FY2024

Attachment A – Notes on Methodology and Overhead Cost Pools

General Notes on Overhead Rate Calculation Methodology:

- An overhead rate is a mechanism for charging earnings operations a proportionate share of the university's central facilities and administrative costs. Allocated overhead costs are divided by adjusted revenues to determine the rates.
- Adjusted revenues are three-year averages for revenues in each rate category. These
 average revenue figures are used to smooth out the rate impact of year-to-year
 fluctuations in gross earnings revenues.
- In general, facilities costs are allocated based on assignable square footage (ASF). Administrative costs are allocated based on modified total direct costs (MTDC).
- To maintain consistency with federal cost accounting rules, various unallowable and non-allocable costs have been excluded from the cost pools allocated to earnings operations.
