The user can also click on the main category name to go to a Category Landing page. On this page the user can navigate to the sub-categories as well as review popular products and categories. Clicking on the sub-category will return products on a search results page.

After receiving a quote number from the Johnstone Supply Store – contact information on the home page. The user enters the quote number in the box and the punch-out retrieves the quote information. The user will be taken to the checkout page to review the quote and once they "checkout" will return the quote to your procurement system.
