   A. All college/VP units are required to follow applicable Internal Revenue Service (IRS) rules that pertain to the tax treatment of employer-provided clothing and uniforms.
   B. The fair market value of any item of clothing or uniform provided by the university to an employee must be treated as taxable income to that employee unless an exclusion described in Policy Details II applies.

II. Exclusions

      1. The value of an item of clothing or a uniform provided by the university to an employee will be treated as non-taxable and thus excludable from income if the following requirements are met:

      3. Any reimbursements to an employee for the employee’s purchase of clothing or uniforms will be treated as non-taxable and thus are excludable from income if:
         a. The expense meets the requirements of this working condition fringe benefit exclusion; and
         b. The employee substantiates the expense with a detailed record, including the equivalent of the original receipt(s) with the amount of the expenditure, dates and location of the expenditure, and business purpose of the expenditure, within 60 days of the expenditure.
